A LETTER FROM THE TEAM

OpenCode has always been about people – curious minds, bold ideas, and the belief that open source can create real change.

In 2026, we aim to make this bigger. more impactful and more inclusive — and we invite you to be a part of this journey.

Together,
let's build a more open tomorrow.

BUILT BY A COMMUNITY THAT BELIEVES

OpenCode is an annual technical event organized by **GeekHaven**, the Technical Society of the Indian Institute of Information Technology, Allahabad. The foundations of GeekHaven are made up of nine different wings encompassing all the major technical domains, which includes:

Design

CyberSecurity

App Development

Web Development

Competitive Coding

FOSS

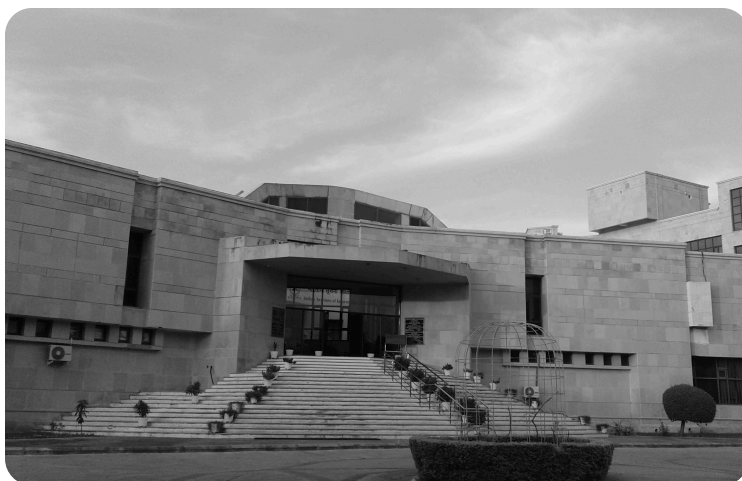

Artificial Intelligence

Blockchain

GameDev

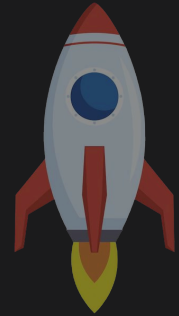

A LEGACY OF EXCELLENCE

IIIT ALLAHABAD

Since 1999

Established in 1999, the **Indian Institute of Information (IIIT-A)** today is recognized globally as a leader in the field of Information Technology and allied areas by the Government of India.

OUR EVOLUTION

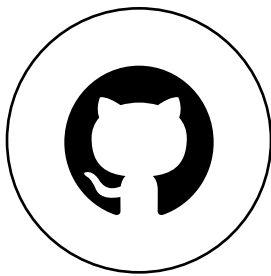

From a campus initiative
to a **national movement.**

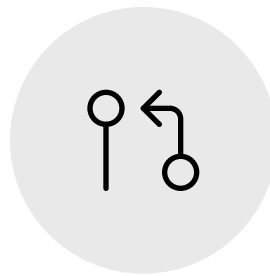

OPENCODE '25

OpenCode '25 brought together a thriving community of open-source contributors. From first-time contributors to experienced mentors, participants built and shipped real-world projects.

The numbers tell the story of a growing open-source ecosystem.

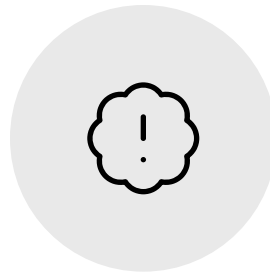

320+
Contributors
Contributed

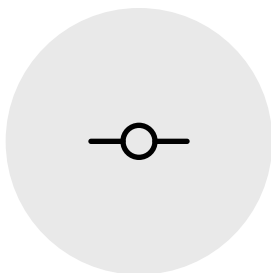

4900+
Pull Requests
Added

55+
Mentors

550+
Issues Resolved

10000+

30+
Projects Hosted

MENTOR

OpenCode witnesses endless programming and brainstorming in the form of several different projects, ranging from web development to app development, from artificial intelligence to design, and much more. But all of this is not possible without skilled mentors.

OpenCode has a wide variety of mentors with different skills who are competent developers themselves and will help the contributors learn and get positive feedback.

SPONSORSHIP OPPORTUNITIES

BRANDING & VISIBILITY

Features WHAT YOU GET	 Bronze In-kind / Merchandise	 SILVER Rs 10,000	 GOLD Rs 20,000	 TITLE Rs 30,000
 Logo on official event website	Yes (with link)	Yes (with link)	Yes (with link)	Yes (top placement, with link)
 Logo on posters, banners, standees	✗	Yes	Yes	Yes (premium placement)
 Logo on event T-shirts / merch	✗	✗	Yes (Back)	Yes (front, premium)
 Social media mention	Yes (grouped post)	Yes (dedicated post)	Yes (branded posts)	Yes (reels + YouTube)
 Naming rights: "OpenCode'26 powered by..."	✗	✗	✗	Yes
 Featured article / interview on our blog	✗	✗	Yes	Yes
 Priority mention in contributor newsletters	✗	✗	Yes	Yes (every issue)
 Intro video played at opening ceremony	✗	✗	Optional	Yes
 Permanent listing under "Past Sponsors"	Yes	Yes	Yes	Yes

EVENTS & COMMUNITY ENGAGEMENT

 Tool / platform promoted to all contributors	Yes	Yes	Yes	Yes
 Repo access for custom issues	✗	Yes	Yes	Yes (dedicated project repo)
 Mentor / judge slot	✗	Yes (1)	Yes (2)	Yes (unlimited)

 Workshop speaker details	✗	✗	Yes	Yes (for both)
 HR / recruitment point of contact	✗	✗	Yes	Yes
 Intro video for YouTube	✗	✗	Optional	Yes

TESTIMONIALS

The event is great for beginners and experienced students who want to get started with open source development or looking for a challenging contest in the same field.

— Vamsi Sangam
Software Engineer at Microsoft, India

OpenCode ended with introducing me to new and exciting stuff like loaders, cool libraries like particle.js, making games with the help of javascript, and many more things.

— Ananya Agarwal
Associate Software Engineer at Gojek tech

The sheer variety of tasks that this event provides is reason enough for any person to try it out. From competitive coders to budding data scientists, everyone can find something to their liking

— Vishal Pani
Reserch Intern at INRIA

Contributing to projects gave me internal happiness as my work was used in the main project and available publicly. It was an experience to remember and I can't forget it as it gave me a head start into the world of Open-source contributing.

— Anupam Dugar
Software Engineer at Deutsche TelekomDigital Labs

It was an amazing experience. Learning and discussing with all might. A journey beyond the ocean world of open source, where we like a small drop was ready to submerge in those thousands of lines of code yet begin our new ride all along with other drops

— Lekhika Dugtal
Software Developer at ABB

The beauty of OpenCode is that it's equally challenging for both new developers and seasoned developers. Through OpenCode I got to work outside of my comfort zone and learn technologies I perhaps would never have touched. It was a crazy learning experience and a very good starting point for anyone trying to get into development or open source.

— Shreyas Gupta
Upcoming Product Engineering Intern at Sprinkl

It was an amazing experience. Learning and discussing with all might. A journey beyond the ocean world of open source, where we like a small drop was ready to submerge in those thousands of lines of code yet begin our new ride all along with other drops

— Lekhika Dugtal
Student at ABV-IIITM

Opencode played a very important role in my college life, it helped me connect with my seniors, and for the first time I got my code reviewed by people better than me. It taught me concepts that I still use after 2 years! The best part of opencode: It is for everyone, no matter what you like

— Manthan Surkar
Software Engineer Intern Razorpay

PAST SPEAKERS

Walter Bender

Founder & Director of Sugar Labs Organisation

David Wheeler

Director of Open Source Supply Chain Security at the Linux Foundation

Abhishek Mankuskar

Founder of SWOC & Speaker at Devfest

Rajat Jain
